

# Workbook 1 - Group Submission

## Start Assignment

- Due Thursday by 8am
- Points 21
- Submitting a file upload
- File Types pdf
- Available until Oct 9 at 4pm

Minor updates to the Project Workbook templates have been made.

The Research Project Workbook Template can be found at [Project Workbook Template - research v3.docx \(https://sjsu.instructure.com/courses/1636988/files/88324317?wrap=1\)](https://sjsu.instructure.com/courses/1636988/files/88324317?wrap=1)   
([https://sjsu.instructure.com/courses/1636988/files/88324317/download?download\\_frd=1](https://sjsu.instructure.com/courses/1636988/files/88324317/download?download_frd=1)) 

The Development Project Workbook Template can be found at [Project Workbook Template - development V3.docx \(https://sjsu.instructure.com/courses/1636988/files/88324309?wrap=1\)](https://sjsu.instructure.com/courses/1636988/files/88324309?wrap=1)   
([https://sjsu.instructure.com/courses/1636988/files/88324309/download?download\\_frd=1](https://sjsu.instructure.com/courses/1636988/files/88324309/download?download_frd=1)) 

This assignment is graded by your project advisor using the following assessment measurements. You should discuss each rubric criteria in the context of your specific project with your advisor.

3 - Exceeds Mastery

2 - Meets Mastery

1 - Below Mastery

## Workbook 1: Combined Development/Research

| Criteria                                                                                                                                                                           | Ratings                                                                                                                                                                                                                     |                                                                                                                                                          |                                                                                                                                                        | Pts   |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
|  WB1, Ch1.<br>Literature Search,<br>State-of-the-Art<br>threshold: 2.0 pts                         | <b>3 pts</b><br><b>Exceeds Mastery:</b> State-of-the-art technologies and techniques in both academia and industry are clearly identified and referenced. Many references are from peer-reviewed publications.              | <b>2 pts</b><br><b>Mastery:</b> Some State-of-the-art technologies and techniques from academia and industry are identified with some references.        | <b>1 pts</b><br><b>Below Mastery:</b> State-of-the-art technologies and techniques from academia and industry are deficient and references are lacking | 3 pts |
|  WB1, Ch2.<br>Justification<br>threshold: 2.0 pts                                                  | <b>3 pts</b><br><b>Exceeds Mastery:</b> This project is so strongly justified that all expectations are that it will result in a published peer-reviewed paper and/or that it would attract funding when presented at Expo. | <b>2 pts</b><br><b>Mastery:</b> Justification is worthy of receiving credits for both part A and B of this two semester project                          | <b>1 pts</b><br><b>Below Mastery:</b> Project lacks a clear justification                                                                              | 3 pts |
|  WB1, Ch3.<br>Requirements (development) or Baseline Approaches (research)<br>threshold: 2.0 pts | <b>3 pts</b><br><b>Exceeds Mastery:</b> Requirements or baseline approaches are very complete leaving little room for ambiguity.                                                                                            | <b>2 pts</b><br><b>Mastery:</b> Requirements or baseline approaches are mostly complete.                                                                 | <b>1 pts</b><br><b>Below Mastery:</b> Requirements or baseline approaches are obviously incomplete.                                                    | 3 pts |
|  WB1, Ch4.<br>Dependencies and Deliverables<br>threshold: 2.0 pts                                | <b>3 pts</b><br><b>Exceeds Mastery:</b> All dependencies that will bring the project to a halt are listed. Additional deliverables listed demonstrate this project layout exceeds expectations.                             | <b>2 pts</b><br><b>Mastery:</b> Any dependencies that will bring the project to a halt are listed. Additional deliverables demonstrate a strong project. | <b>1 pts</b><br><b>Below Mastery:</b> Missing dependencies or no additional deliverables.                                                              | 3 pts |

| Criteria                                                                                                                                 | Ratings                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                   | Pts   |
|------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
|  WB1, Ch5.<br>Project Architecture<br>threshold: 2.0 pts | <b>3 pts</b><br><b>Exceeds Mastery:</b> Architecture diagram and description includes both function and technology and is complete.                                                                               | <b>2 pts</b><br><b>Mastery:</b> Architecture diagram and description includes both function and technology with some obvious omissions.                                                                                                                                                                                                                                                                                                | <b>1 pts</b><br><b>Below Mastery:</b> Architecture diagram and description is missing function or technology and is obviously incomplete.                                                                         | 3 pts |
|  WB1, Ch8.<br>Implementation Plan<br>threshold: 3.0 pts  | <b>3 pts</b><br><b>Exceeds Mastery:</b> All components requested for this chapter have been completed.                                                                                                            | <b>2 pts</b><br><b>Mastery:</b> 1. A programming and execution environment has been set up. 2. Development tools have been acquired for each member who requires them. 3. A hardware prototyping and simulation environment has been obtained. 4. Sample programs or hardware simulations is understood or can be executed. 5. There is a clear plan for implementing a prototype/method so the use of all technologies is understood. | <b>1 pts</b><br><b>Below Mastery:</b> The Implementation plan is clearly deficient.                                                                                                                               | 3 pts |
|  WB1, Ch9.<br>Project Schedule<br>threshold: 3.0 pts   | <b>3 pts</b><br><b>Exceeds Mastery:</b> A complete project schedule with identified checkpoints or sprints is provided. Each team member's tasks are identified. Little task overlap exists between team members. | <b>2 pts</b><br><b>Mastery:</b> Project schedule with some checkpoints or sprints provided. Team member's tasks are identified but with some gaps. Task overlap exists between team members.                                                                                                                                                                                                                                           | <b>1 pts</b><br><b>Below Mastery:</b> Minimal project schedule with few checkpoints or sprints provided. Team member's tasks are identified but with significant gaps. Many task gaps exist between team members. | 3 pts |
