Design Spec or Log Book (Individual)

Start Assignment

- Due Thursday by 8am
- Points 25
- Submitting a file upload
- File Types pdf
- Available until Nov 13 at 4pm

Select one of the methodologies below for providing an individual submission.

Research (Log Book)

Each member of a project team should submit an individual log report detailing their activity in each week of the project thus far. The format can either be in an Excel spreadsheet or a Word document. The report should be detailed enough to ascertain your contribution (as opposed to that of your teammates) to the overall project.

Development (Design Spec)

Each member of a project team should select a portion of their project and write a design specification for that subset of their project. The information in the design spec will complement information in the workbook. The design spec:

1. Should cover a substantial functional area in your project.
2. Should be an obvious individual contribution to the project.
3. Should provide detail beyond the Workbook content. This can include more detailed requirements, definition of data structures, additional UI mockups, database schema, more detailed test definition (including unit and functional tests), code examples, etc.
4. Should not substantially overlap the workbook content or other individual design specs for the project.

The set of design specs for your project does not have to cover all aspects of your project.

A Development template for this assignment can be found at: Design-spec-template.docx (https://sjsu.instructure.com/courses/1636988/files/88324288/download?wrap=1)

Design Spec or Log Book

Criteria	Ratings				Pts
Design Spec or Log Book	**25 pts** **The submission is detailed and describes most project activities completed thus far by the team.**	**15 pts** **The submission has entries for all project weeks but there is not enough detail to ascertain project contribution.**	**5 pts** **Submission entries are short, lacking details, and some entries are missing.**	**0 pts** **Not submitted or does not match observed student activity on the project.**	25 pts
